

PRESS RELEASE OF 9 JULY 2015 FROM PERROT DUVAL HOLDING S.A.

THE PERROT DUVAL GROUP CONFIRMS ITS LAST FORECAST

As announced on 13 March 2015, the Perrot Duval Group (Perrot Duval Holding S.A.), specialist in the field of automation, has seen its sales drop to CHF 44.1 million (from CHF 51.6 million a year ago) and its profit after tax reduced to CHF 0.1 million (from 0.9 mio as at 30 April 2014) for its full fiscal year 2014/15.

While the Infranor Division – a specialist in robotised automation – achieved positive and encouraging figures in 2014/15 and while Füll Process – a specialist in process automation – was able to compensate the postponement of projects on the part of its Russian and Ukrainian customers in particular, the same could not be said for the Cybelec Division – a provider of complete solutions in selected niche markets, in particular manufacturers of machinery for sheet-metal bending – mainly because it underwent a restructuring phase throughout the year.

Generally speaking, the Group's accounts were also affected by the negative impact of the floor exchange rate between the Swiss franc and the euro being abandoned on 15 January 2015.

The company will provide final figures and detailed information on the 2014/15 financial year as well as comments on ongoing business development during its presentation of the balance sheet on 27 August 2015.

This press release is available on the Perrot Duval Group website and can be downloaded at http://www.perrotduval.com/article.php3?id_article=7.
